VOLUMES 51 AND 52

January-December, 1975

### CARDIOVASCULAR SURGERY 1974

No. 1 (August)

#### Foreword

John Hines Kennedy .....	I-1
<b>Depressed Cardiac Performance After Mitral Valve Replacement: A Problem of Myocardial Preservation During Operation</b>	
James V. Maloney, Jr., Norman Cooper, Donald J. Mulder and Gerald D. Buckberg .....	I-3
<b>Effect of Cardiotonic and Vasoactive Drugs on Transmural Flow Dis- tribution and Ventricular Volume in the Fibrillating Heart on Cardio- pulmonary Bypass</b>	
Joe R. Utley, Gwendolyn Michalsky, Richard C. Treat, Kazi Mobin- Uddin, and Alfred Perlin .....	I-9
<b>Histochemical and Structural Changes in Human Myocardial Cells After Cardiopulmonary Bypass</b>	
Neville Bittar, Joseph R. Koke, Herbert A. Berkoff, and Donald R. Kahn .....	I-16
<b>Comparative Hemodynamic Responses to Chlorpromazine, Nitro- prusside, Nitroglycerin, and Trimethaphan Immediately After Open- Heart Operations</b>	
Edward B. Stinson, E. L. Holloway, G. Derby, P. E. Oyer, J. Hollings- worth, R. B. Griepp, and D. C. Harrison .....	I-26
<b>Simultaneous Operative Correction of Aortic Valve Stenosis and Idiopathic Hypertrophic Subaortic Stenosis</b>	
Scott Stewart, Navin Nanda, and James DeWeese .....	I-34
<b>Functional Evaluation of the Procine Heterograft in the Mitral Position</b>	
Allen D. Johnson, Pat O. Daily, Kirk L. Peterson, Martin LeWinter, George J. DiDonna, Grace Blair, and Gen Niwayama .....	I-40
<b>Rheumatic Mitral Regurgitation: The Case for Annuloplasty in the Pediatric Age Group</b>	
J. Goeffrey Stevenson, Isamu Kawabori, Beverly C. Morgan, David H. Dillard, K. Alvin Merendino, and Warren G. Guntheroth .....	I-49
<b>Cerebral Effects of Profound Hypothermia (18°C) and Circulatory Arrest</b>	
Minoru Aoyagi, Allen H. Flasterstein, Judy Barnette, Lear Von Koch, James N. Ross, Jr., and John Hines Kennedy .....	I-52
<b>Results of Reoperation for Unsuccessful Coronary Artery Bypass Surgery</b>	
Roger A. Winkle, Edwin L. Alderman, Norman E. Shumway, and Donald C. Harrison .....	I-61

(Continued)

S-III

<b>Saphenous Vein Bypass Grafting: Changes in Native Circulation and Collaterals</b>	
Peter R. McLaughlin, Neil D. Berman, Brian C. Morton, Michael J. McLoughlin, Harold E. Aldridge, Allan G. Adelman, Bernard S. Goldman, Alan S. Trimble, and John E. Morch	I-66
<b>Blood Flow and Vasoactive Drug Effects in Internal Mammary and Venous Bypass Grafts</b>	
John R. McCormick, Masamitsu Kaneko, Arthur E. Baue, and Alexander S. Geha	I-72
<b>Improved Angina Threshold and Coronary Reserve Following Direct Myocardial Revascularization</b>	
Kanu Chatterjee, Jack M. Matloff, H. J. C. Swan, William Ganz, Hector Sustaita, Peter Magnusson, Neil Buchbinder, Marc Henis and James S. Forrester	I-81
<b>Postoperative Hemodynamics Following Aortic Cross-Clamping During Aortocoronary Bypass Surgery</b>	
Randall B. Griepp, Edward B. Stinson, Philip Oyer, Jack Copeland, and Norman E. Shumway	I-93
<b>Changes in Survival and Symptom Relief in a Longitudinal Study of Patients After Bypass Surgery</b>	
Paul L. Tecklenberg, Edwin L. Alderman, Craig Miller, Norman E. Shumway, and Donald C. Harrison	I-98
<b>Influence of Surgery on Survival in 145 Patients with Left Main Coronary Artery Disease</b>	
James V. Talano, Patrick J. Scanlon, William R. Meadows, Mushtaq Kahn, Roque Pifarre, and Rolf M. Gunnar	I-105
<b>Left Main Coronary Artery Obstruction: Follow-up of Thirty Patients With and Without Surgery</b>	
Ruey J. Sung, Stephen M. Mallon, Stanley E. Richter, Ali E. Ghahramani, Leonard S. Sommer, Gerard A. Kaiser, and Robert J. Myerburg	I-112
<b>Myocardial Damage in Combined Valvular and Coronary Bypass Surgery</b>	
Stephen J. Rossiter, Herbert N. Hultgren, Jon C. Kosek, Robert D. Wuerflein, and William W. Angell	I-119
<b>Valve Replacement and Myocardial Revascularization: Results of Combined Operation in 59 Patients</b>	
Thomas J. Berger, Robert B. Karp, and Nicholas T. Kouchoukos	I-126
<b>Prospective Randomized Study of Coronary Bypass Surgery in Stable Angina: The First 100 Patients</b>	
Virendra S. Mathur and Gene A. Guinn	I-133
<b>Long-term Survival Following Coronary Bypass Surgery in Patients with Significant Impairment of Left Ventricular Function</b>	
O. Wayne Isom, Frank C. Spencer, Ephraim Glassman, Judith M. Dembrow, and Bernard S. Pasternack	I-141
<b>Effects of Partial Obstruction on Phasic Flow in Aortocoronary Grafts</b>	
John D. Folts, Donald R. Kahn, Neville Bittar and George G. Rowe	I-148
<b>The Spectrum of Exercise Test and Angiographic Correlations in Myocardial Revascularization Surgery</b>	
Wayne Siegel, Juan S. Lim, William L. Proudfit, William C. Sheldon, and Floyd D. Loop	I-156
<b>Effect of Blood Flow Rate on Subendothelial Proliferation in Venous Autografts Used as Arterial Substitutes</b>	
Scott L. Faulkner, R. Darryl Fisher, David M. Conkle, David L. Page, and Harvey W. Bender, Jr.	I-163
<b>Coronary Bypass Surgery: Value of Maximal Exercise Testing in Assessment of Results</b>	
Arthur J. Merrill, Jr., Charles Thomas, Eliot Schechter, Robert Cline, Ray Armstrong and William Stanford	I-173
<b>Nonmechanical Factors Affecting Aortocoronary Vein Graft Flow</b>	
G. Frank O. Tyers, Martin J. O'Neill, Jean T. Messner, and John A. Waldhausen	I-178
<b>Combined Gas Endarterectomy and Coronary Artery Bypass Graft: A Follow-up Study</b>	
Magdi H. Yacoub, Eid Fawzy, Humphrey Anyanwu and Malcolm Towers	I-182

(Continued)

<b>Noninvasive Assessment of Aorta-Coronary Saphenous Vein Graft Patency Using Directional Doppler</b>	
Z. Adam Pisko-Dubienski, Ronald J. Baird, and Donald R. Wilson . . . .	I-188
<b>Myocardial Infarction in Coronary Artery Surgery</b>	
Brian C. Morton, Peter R. McLaughlin, Alan S. Trimble and John E. Morch . . . . .	I-198
<b>Ascending Aortic Aneurysms: Review of 100 Consecutive Cases</b>	
John E. Liddicoat, Szabolcs M. Bekassy, Pedro A. Rubio, George P. Noon, and Michael E. DeBakey . . . . .	I-202
<b>Logistic and Technical Considerations in the Treatment of the Wounded Heart</b>	
Kenneth L. Mattox, Lear Von Koch, Arthur C. Beall, Jr., and Michael E. DeBakey . . . . .	I-210
<b>Myocardial Blood Flow Following . . . . . pass Surgery</b>	
A. D. Goldberg, J. C. W. Crawley, E. . . . . and Magdi H. Yacoub . . . . .	I-215

Abstracts for the 48th Scientific Sessions,

Scientific Sessions for Nurses,

29th Annual Meeting,

Council on Arteriosclerosis — American Society for the Study of Arteriosclerosis

No. 2 (October)

## SUDDEN CORONARY DEATH OUTSIDE HOSPITAL

No. 3 (December)

<b>I. THE BURDEN TO THE COMMUNITY</b> . . . . .	III-1
Chairman: James Warren	
<b>Demographic Characteristics and Trends in Arteriosclerotic Heart Disease Mortality: Sudden Death and Myocardial Infarction</b>	
L. Kuller, J. Perper, and M. Cooper . . . . .	III-1
<b>Discussion</b> . . . . .	III-11
<b>Changes in Life Expectancy Since 1900</b>	
Manning Feinleib . . . . .	III-16
<b>II. THE PATHOPHYSIOLOGY</b> . . . . .	III-18
Chairman: Jesse Edwards	
<b>Anatomical Pathology of Sudden Unexpected Cardiac Death</b>	
Colin J. Schwartz and Ross G. Gerrity . . . . .	III-18
<b>Arteriosclerosis of Coronary Arteries in Sudden, Unexpected Deaths</b>	
Joshua A. Perper, Lewis H. Kuller, and Malcolm Cooper . . . . .	III-27
<b>The Pathogenesis of Coronary Plaques, Thromboses, and Hemorrhages: An Evaluative Review</b>	
Meyer Friedman . . . . .	III-34
<b>Pathology of the Myocardium and the Conduction System in Sudden Coronary Death</b>	
J. T. Lie, and J. L. Titus . . . . .	III-41
<b>Pathology of Atherosclerotic Heart Disease in Sudden Death</b>	
Nobuhisa Baba, Winslow J. Bashe, Jr., Martin D. Keller, Jack C. Geer, and Joseph R. Anthony . . . . .	III-53
<b>Myocardial Cell Necrosis and Sudden Death in Humans</b>	
Dennis D. Reichenbach and Ned S. Moss . . . . .	III-60
<b>Pathology of Atherosclerotic Heart Disease in Sudden Death</b>	
Winslow J. Bashe, Jr., Nobuhisa Baba and Martin D. Keller . . . . .	III-63

(Continued)

<b>Discussion</b> .....	III-69
<b>Methodological Considerations for the Study of Sudden Cardiac Death: An Autopsy Protocol</b>	
Colin J. Schwartz, Richard H. Lovell, Michael F. Oliver, and Oglesby Paul .....	III-78
<b>III. THE ELECTROPHYSIOLOGY OF LETHAL ARRHYTHMIAS</b> .....	III-96
Chairman: Howard Burchell	
<b>Possible Electrophysiological Mechanisms for Lethal Arrhythmias Accompanying Myocardial Ischemia and Infarction</b>	
Andrew L. Wit and J. Thomas Bigger, Jr. ....	III-96
<b>The Nervous System and Cardiac Arrhythmias</b>	
J. A. Abildskov .....	III-116
<b>Electrophysiological Mechanisms Involved in Ventricular Fibrillation</b>	
Douglas P. Zipes .....	III-120
<b>Validity of Myocardial Infarction Models</b>	
Harry A. Fozzard .....	III-131
<b>Discussion</b> .....	III-138
<b>IV. THE INDICATORS OF RISK</b> .....	III-147
Chairman: Oglesby Paul	
<b>Profile of High Risk in People Known to Have Coronary Heart Disease: A Review</b>	
Arthur J. Moss .....	III-147
<b>Prodromal Symptoms and Signs of Sudden Death</b>	
Manning Feinleib, Arthur B. Simon, Richard F. Gillum and James R. Margolis .....	III-155
<b>Time, Place, Event of Sudden Death</b>	
Thomas Killip .....	III-160
<b>Predictors of Sudden Cardiac Death</b>	
Gary D. Friedman, Arthur L. Klatsky and A. B. Siegelau .....	III-164
<b>Sudden Death in Patients Evaluated for Ischemic Heart Disease</b>	
A. Oberman, M. Ray, M. E. Turner, G. Barnes, and C. Grooms .....	III-170
<b>Discussion</b> .....	III-172
<b>Profile of Risk of Sudden Death in Apparently Healthy People</b>	
Joseph T. Doyle .....	III-176
<b>Sudden Death Due to Coronary Artery Disease — A Clinical, Hemodynamic and Angiographic Profile</b>	
James R. Margolis, John W. Hirshfeld, Jr., J. Frederick McNeer, C. Frank Starmer, Robert A. Rosati, Robert H. Peter, Victor S. Behar, and Yihong Kong .....	III-180
<b>Discussion</b> .....	III-183
<b>V. MONITORING FOR SERIOUS ARRHYTHMIAS</b> .....	III-189
Chairman: Richard Ross	
<b>Monitoring for Serious Arrhythmias and High Risk of Sudden Death</b>	
Bernard Lown, Allan F. Calvert, Robert Armington, and Michael Ryan .....	III-189
<b>Ventricular Premature Beats and Mortality of Men with Coronary Heart Disease</b>	
William Ruberman, Eva Weinblatt, Charles W. Frank, Judith D. Goldberg, Sam Shapiro and Charles L. Feldman .....	III-199
<b>Discussion</b> .....	III-201
<b>Prognostic Grading and Significance of Ventricular Premature Beats After Recovery From Myocardial Infarction</b>	
Arthur J. Moss, John DeCamilla, William Mietlowski, William A. Greene, Sidney Goldstein, and Richard Locksley .....	III-204
<b>Ventricular Premature Beats in a Population Sample — Frequency and Associations with Coronary Risk Characteristics</b>	
Richard S. Crow, Ronald J. Prineas, Virgil Dias, Henry L. Taylor, David Jacobs, and Henry Blackburn .....	III-211
<b>VI. EMERGENCY CARE</b> .....	III-216
Chairman: Richard Ross	
<b>Emergency Care</b>	
Eugene L. Nagle, Richard R. Liberthson, Jim C. Hirschman, and Sidney R. Nussenfeld .....	III-216

(Continued)

<b>Coronary Revascularization in Patients Surviving Unexpected Ventricular Fibrillation</b>	
Robert J. Myerburg, Ali Ghahramani, Stephen M. Mallon, Agustin Castellanos, Jr., and Gerard Kaiser .....	III-219
<b>Discussion</b> .....	III-221
<b>Resuscitation From Out-of-Hospital Ventricular Fibrillation: 4 Years Follow-up</b>	
Leonard A. Cobb, Robert S. Baum, Hernan Alvarez III, and William A. Schaffer .....	III-223
<b>Discussion</b> .....	III-229
<b>VII. DRUG THERAPY</b> .....	III-236
Chairman: Richard Lovell	
<b>Arrhythmia Prophylaxis: Long-Term Suppressive Medication</b>	
Richard R. H. Lovell .....	III-236
<b>Pharmacologic Modification of Arrhythmias After Experimentally Induced Acute Myocardial Infarction Drugs Acting on the Nervous System</b>	
B. R. Lucchesi and F. J. Kniffen .....	III-241
<b>Problems in Design and Evaluation of Antiarrhythmia Trials</b>	
Ronald J. Prineas .....	III-248
<b>Discussion</b> .....	III-251
<b>VIII. PRIMARY PREVENTION</b> .....	III-258
Chairman: Henry Blackburn	
<b>Primary Prevention of Sudden Coronary Death</b>	
Jeremiah Stamler .....	III-258
<b>Discussion</b> .....	III-274
<b>Author Index</b> .....	III-281
<b>Subject Index</b> .....	III-283

# SUPPLEMENTS TO CIRCULATION

VOLUMES 51 and 52

JANUARY-DECEMBER, 1975

*Indexes to ABSTRACTS, AHA 48th Scientific Sessions, Supplement II, October 1975 and Sudden Coronary Death Outside Hospital, Supplement III, December 1975 are included in those issues.*

## AUTHOR INDEX

### A

Adelman, A.G., 1-66  
Alderman, E.L., 1-61, 1-98  
Aldridge, H.E., 1-66  
Angell, W.W., 1-119  
Anyanwu, H., 1-182  
Aoyagi, M., 1-52  
Armstrong, R., 1-173

### B

Baird, R.J., 1-188  
Barnette, J., 1-52  
Baue, A.E., 1-72  
Beall, A.C., Jr., 1-210  
Bekassy, S.M., 1-202  
Bender, H.W., Jr., 1-163  
Berger, T.J., 1-126  
Berkoff, H.A., 1-16  
Berman, N.D., 1-66  
Bittar, N., 1-16, 1-148  
Blair, G., 1-40  
Buchbinder, N., 1-81  
Buckberg, G.D., 1-3

### C

Chatterjee, K., 1-81  
Cline, R., 1-173  
Conkle, D.M., 1-163  
Cooper, N., 1-3  
Copeland, J., 1-93  
Crawley, J.C.W., 1-215

### D

Daily, P.O., 1-40  
DeBakey, M.E., 1-202, 1-210  
Dembrow, J.M., 1-141  
Derby, G., 1-26  
DeWeese, J., 1-34

# SUPPLEMENTS TO CIRCULATION

VOLUMES 51 AND 52

JANUARY-DECEMBER, 1975

*Indexes to ABSTRACTS, AHA 48th Scientific Sessions, Supplement II, October 1975 and Sudden Coronary Death Outside Hospital, Supplement III, December, 1975 are included in those issues.*

## SUPPLEMENT SUBJECT INDEX

### A

- Acid hematein reaction**
  - histochemical and structural changes in myocardial cells after cardiopulmonary bypass, I-16
- Actuarial studies**
  - changes in survival and symptom relief after bypass surgery, I-98
  - combined gas endarterectomy and coronary artery bypass graft, I-182
- Afterload reduction**
  - hemodynamic responses to vasodilators after open-heart surgery, I-26
- Aneurysms**
  - of ascending aorta, I-202
- Angina pectoris**
  - combined gas endarterectomy and coronary artery bypass graft, I-182
  - improved angina threshold and coronary reserve following direct myocardial revascularization, I-81
  - left main coronary artery obstruction, I-112
  - longitudinal study after bypass surgery, I-98, I-133
  - long-term survival following coronary bypass surgery in patients with significant impairment of LV function, I-141
  - medical versus surgical treatment, I-98, I-133
  - prospective randomized study of coronary bypass surgery in stable angina, I-133
  - reoperations for unsuccessful coronary artery bypass surgery, I-61
  - value of maximal exercise testing in assessment of results of coronary bypass surgery, I-173
- Angiography**
  - combined gas endarterectomy and coronary artery bypass graft, I-182
  - myocardial revascularization surgery, I-156
- Angiotensin**
  - effect on flow and volume during cardiopulmonary bypass, I-9
- Animal studies**
  - baboons
    - cerebral effects of hypothermia and circulatory arrest, I-52
  - dogs
    - blood flow and vasoactive drug effects in bypass grafts, I-72
    - effect of blood flow rate on subendothelial proliferation in venous autografts, I-163
    - effect of cardiotoxic and vasoactive drugs on transmural blood flow, I-9
    - effects of partial obstruction on phasic flow in aortocoronary grafts, I-148
- Annuloplasty**
  - for rheumatic mitral regurgitation in children, I-49
- Aortic aneurysms**
  - management of, I-202
- Aortic cross-clamping**
  - during aortocoronary bypass surgery
    - postoperative hemodynamics following, I-93
  - histochemical and structural changes in myocardial cells, I-16
  - myocardial damage in combined valvular and coronary bypass surgery, I-119
- Aortic valve**
  - replacement
    - ascending aortic aneurysms, I-202
    - myocardial damage in combined valvular and coronary bypass surgery, I-119

- and myocardial revascularization, I-126
  - simultaneous correction of AVS and IHSS, I-34
- Aortic valve stenosis**
  - simultaneous correction of idiopathic hypertrophic subaortic stenosis and, I-34
- Aortocoronary bypass surgery**
  - aortic-cross clamping during, I-16, I-119
  - postoperative hemodynamics following, I-93
  - ascending aortic aneurysms, I-202
  - effects of partial obstruction on phasic flow, I-148
  - improved angina threshold and coronary reserve following myocardial revascularization, I-81
  - left main coronary artery obstruction, I-112
  - noninvasive assessment of graft patency using directional Doppler, I-188
  - nonmechanical factors affecting flow, I-178
  - saphenous vein bypass grafting, I-66
- Arterial stenosis**
  - effect of blood flow rate on subendothelial proliferation in venous autografts, I-163
- Arteriovenous fistula**
  - effect of blood flow rate on subendothelial proliferation in venous autografts, I-163
- Atherosclerosis**
  - ascending aortic aneurysms, I-202
- Atrial pacing stress**
  - improved angina threshold and coronary reserve following myocardial revascularization, I-81
  - prospective randomized study of coronary bypass surgery in stable angina, I-133

### B

- Beating nonworking heart**
  - myocardial preservation during operation, I-3
- Biopsies**
  - postbypass, I-16
- Blood flow**
  - effect of cardiotoxic and vasoactive drugs on transmural blood flow, I-9
  - effect of rate on subendothelial proliferation in venous autografts used as arterial substitutes, I-163
  - effects of partial obstruction on phasic flow in aortocoronary grafts, I-148
  - myocardial blood flow following saphenous vein bypass surgery, I-215
  - regional
    - cerebral effects of hypothermia and circulatory arrest, I-52
  - saphenous vein bypass grafting: changes in circulation and collaterals, I-66
  - vasoactive drug and blood flow effects in internal mammary and venous bypass grafts, I-72

### C

- Calcium**
  - effect on flow and volume in fibrillating heart on cardiopulmonary bypass, I-9
- Cardiac output**
  - blood flow and vasoactive drug effects in internal mammary and venous bypass grafts, I-72

**Cardiac performance**

after mitral valve replacement, I-3

**Cardiorrhaphy**

treatment of wounded heart, I-210

**Cardiopulmonary bypass**

aortic cross-clamping, I-119

histochemical and structural changes in myocardial cells, I-16

ascending aortic aneurysms, I-202

cerebral effects of hypothermia and circulatory arrest, I-52

depressed cardiac performance after mitral valve replacement, I-3

effects of drugs on transmural flow distribution and ventricular volume in fibrillating heart, I-9

myocardial infarction in coronary artery surgery, I-198

myocardial preservation during operation, I-3

nonmechanical factors affecting aortocoronary vein graft flow, I-178

**Catheterization**

left main coronary artery obstruction, I-112

**Cell volume regulation**

after cardiopulmonary bypass, I-16

**Cerebral effects**

of profound hypothermia and circulatory arrest, I-52

**Chest pain**

changes in survival and symptom relief in longitudinal study after bypass surgery, I-98

**Children and infants**

cerebral effects of hypothermia and circulatory arrest, I-52

rheumatic mitral regurgitation, I-49

**Chlorpromazine**

hemodynamic responses after open-heart surgery, I-26

**Circulation**

saphenous vein bypass grafting: changes in circulation and collaterals, I-66

See also Blood flow

**Circulatory arrest**

cerebral effects of hypothermia and, I-52

**Collateral vessels**

left main coronary artery disease, I-105

saphenous vein bypass grafting: changes in circulation and collaterals, I-66

**Congenital abnormalities**

AVS and IHSS, I-34

**Congestive heart failure**

combined gas endarterectomy and coronary artery bypass graft, I-182

longitudinal study after bypass studies, I-98

**Coronary arteriography**

left main coronary artery obstruction, I-105, I-112

nonmechanical factors affecting aortocoronary vein graft flow, I-178

value of maximal exercise testing in assessing results of coronary bypass surgery, I-173

valve replacement and myocardial revascularization, I-126

**Coronary artery bypass surgery**

combined gas endarterectomy and, I-182

exercise testing in assessment of results, I-173

exercise test and angiographic correlations in myocardial revascularization surgery, I-156

long-term survival following, in patients with impairment of LV function, I-141

myocardial damage in combined valvular and coronary bypass surgery, I-119

myocardial infarction and, I-198

prospective randomized study in stable angina, I-133

results of reoperation for unsuccessful surgery, I-61

valve replacement and myocardial revascularization, I-126

**Coronary artery disease**

blood flow and vasoactive drug effects in internal mammary and venous bypass grafts, I-72

improved angina threshold and coronary reserve following direct myocardial revascularization, I-81

left main coronary artery obstruction

follow-up study with and without surgery, I-112

influence of surgery on survival, I-105

myocardial blood flow following saphenous vein bypass surgery, I-215

results of reoperation for unsuccessful coronary artery bypass surgery, I-61

saphenous vein bypass grafting: changes in circulation and collaterals, I-66

value of maximal exercise testing in assessing coronary bypass surgery, I-173

**Coronary heart disease**

atherosclerotic, I-156

**Coronary vascular resistance**

blood flow and vasoactive drug effects in internal mammary and venous bypass grafts, I-72

**D****Depressed cardiac performance**

after mitral valve replacement, I-3

**Diastolic/systolic flow ratio**

effects of partial obstruction on phasic flow in aortocoronary grafts, I-148

**Doppler technique**

noninvasive assessment of aorta-coronary saphenous vein bypass graft patency, I-188

**E****Echocardiography**

simultaneous operative correction of AVS and IHSS, I-34

**Epicardial "steal"**

effect of cardiogenic and vasoactive drugs on vascular and compressive resistance, I-9

**Epicardium**

effects of drugs on transmural flow and ventricular volume after cardiopulmonary bypass, I-9

**Epinephrine**

effect on flow and volume during cardiopulmonary bypass, I-9

effects in internal mammary and venous bypass grafts, I-72

**Exercise tests**

and angiographic correlations in myocardial revascularization surgery, I-156

in assessment of results of coronary bypass surgery, I-173

prospective randomized study of coronary bypass surgery in stable angina, I-133

**F****Fibrillation time**

myocardial damage in combined valvular and coronary bypass surgery, I-119

**Follow-up studies**

changes in survival and symptom relief after bypass surgery, I-98

combined gas endarterectomy and coronary artery bypass graft, I-182

left main coronary artery obstruction, I-112

prospective randomized study of coronary bypass surgery in stable angina, I-133

**G****Gas endarterectomy**

coronary artery bypass graft and, I-182

**Glutaraldehyde-fixed porcine heterografts**

for mitral valve replacement, I-40

**Glycogen**

histochemical and structural changes in myocardial cells after cardiopulmonary bypass, I-16

**Graft patency**

blood flow and vasoactive drug effects in internal mammary and venous bypass grafts, I-72

combined gas endarterectomy and coronary artery bypass graft, I-182

effects of partial obstruction on phasic flow in aortocoronary grafts, I-148

exercise test and angiographic correlations in myocardial revascularization surgery, I-156

glutaraldehyde-fixed porcine heterografts, I-40

intraoperative graft flow measurements, I-178

myocardial infarction in coronary artery surgery, I-198

noninvasive assessment of aorta-coronary saphenous vein bypass graft patency using directional Doppler, I-188

results of reoperation for unsuccessful coronary artery bypass surgery, I-61

saphenous vein bypass grafting, I-188

changes in circulation and collaterals, I-66

**Gunshot wounds**

treatment of wounded heart, I-210

**H****Heart wounds**

logistic and technical considerations in treatment of, I-210

**Hemodilution**

- depressed cardiac performance after mitral valve replacement, I-3

**Histochemical changes**

- in myocardial cells after cardiopulmonary bypass, I-16

**Hyperemia**

- cerebral effects of hypothermia and circulatory arrest, I-52
- effects of partial obstruction on phasic flow in aortocoronary grafts, I-148

**Hypertrophy, left ventricular**

- myocardial damage in combined valvular and coronary bypass surgery, I-119

**Hypothermia**

- cerebral effects of circulatory arrest and, I-52

**I****Idiopathic hypertrophic subaortic stenosis**

- simultaneous correction of aortic valve stenosis and, I-34

**Ischemia**

- exercise test and angiographic correlations in myocardial revascularization surgery, I-156

**Ischemic arrest**

- depressed cardiac performance after mitral valve replacement, I-3

**Ischemic heart disease**

- prospective randomized study of coronary bypass surgery in stable angina, I-133
- value of maximal exercise testing in assessment of results of coronary bypass surgery, I-173

**Isoproterenol**

- effects in internal mammary and venous bypass grafts, I-72
- effects on flow and volume during cardiopulmonary bypass, I-9

**L****Lactacidosis**

- cerebral effects of hypothermia and circulatory arrest, I-52

**Lactate metabolism**

- improve angina threshold and coronary reserve following myocardial revascularization, I-81

**Left main coronary artery obstruction**

- follow-up study, I-112
- influence of surgery on survival, I-105

**Left ventricle**

- hypertrophy, I-119
- hypokinetic, survival following coronary bypass surgery, I-141
- left main coronary artery disease, I-105
- myocardial damage in combined valvular and coronary bypass surgery, I-119
- outflow tract obstruction, simultaneous correction of AVS and IHSS, I-34

**M****Mammary artery grafts**

- blood flow and vasoactive drug effects, I-72

**Marfan's disorder**

- ascending aortic aneurysms, I-202

**Mitochondria**

- changes in human myocardial cells after cardiopulmonary bypass, I-16

**Mitral regurgitation**

- mitral annuloplasty for, I-49

**Mitral stenosis**

- glutaraldehyde-fixed porcine heterografts for mitral valve replacement, I-40

**Mitral valve**

- replacement
  - depressed cardiac performance after, I-3
  - glutaraldehyde-fixed porcine heterografts, I-40
  - myocardial damage in combined valvular and coronary bypass surgery, I-119
  - and myocardial revascularization, I-126
  - rheumatic mitral regurgitation, I-49

**Morphology**

- changes in myocardial cells after cardiopulmonary bypass, I-16

**Myocardial infarction**

- changes in survival and symptom relief after bypass surgery, I-98
- combined gas endarterectomy and coronary artery bypass graft, I-182
- in coronary artery surgery, I-198

- myocardial damage in combined valvular and coronary bypass surgery, I-119

**Myocardium**

- compression, effects of cardiogenic and vasoactive drugs on transmural flow and ventricular volume during cardiopulmonary bypass, I-9
- damage in combined valvular and coronary bypass surgery, I-119
- necrosis, effect of drugs on flow and volume during cardiopulmonary bypass, I-9
- oxygen consumption, blood flow and vasoactive drug effects in internal mammary and venous bypass grafts, I-72
- preservation during operation, I-3
- revascularization
  - combined gas endarterectomy and coronary artery bypass graft, I-182
  - exercise test and angiographic correlations in, I-156
  - improved angina threshold and coronary reserve post-operatively, I-81
  - valve replacement and, I-126

**N****Neurological abnormalities**

- following hypothermia and circulatory arrest, I-52

**Nitroglycerine**

- hemodynamic responses after open-heart surgery, I-26

**Nitroprusside**

- hemodynamic responses after open-heart surgery, I-26

**Noninvasive monitoring**

- of patency of aorta-coronary bypass grafts using directional Doppler, I-188

**Nonworking heart**

- myocardial preservation during operation, I-3
- nonmechanical factors affecting aortocoronary vein graft flow, I-178

**O****Obstruction of left main coronary artery**

- follow-up study, I-112
- influence of surgery on survival, I-105

**Obstructive coronary artery disease**

- improved angina threshold and coronary reserve following myocardial revascularization, I-81
- progression in grafted vessels, I-66, I-133

**Open-heart surgery**

- hemodynamic responses of vasodilators after, I-26

**Ouabain**

- effect on flow and volume during cardiopulmonary bypass, I-9

**Oxygen consumption, myocardial**

- improved angina threshold and coronary reserve following myocardial revascularization, I-81
- internal mammary and venous bypass grafts, I-72

**P****Penetrating heart injuries**

- treatment of wounded heart, I-210

**Phenylephrine**

- effects in internal mammary and venous bypass grafts, I-72

**Phosphorylase**

- changes in myocardial cells after cardiopulmonary bypass, I-16

**Propranolol**

- nonmechanical factors affecting aortocoronary vein graft flow, I-178

**Prostheses**

- glutaraldehyde-fixed porcine heterografts for mitral valve replacement, I-40

**R****Radioactive microspheres**

- cerebral effects of hypothermia and circulatory arrest, I-52

**Rheumatic heart disease**

- mitral annuloplasty in children, I-49

**Ruptured heart**

- treatment of wounded heart, I-210

**S****Saphenous vein bypass grafts**

- blood flow and vasoactive drug effects, I-72

- changes in circulation and collaterals, I-66
- effect of blood flow rate on subendothelial proliferation, I-163
- effects of partial obstruction on phasic flow in aortocoronary grafts, I-148
- follow-up studies, I-98
- left main coronary artery obstruction, I-112
- myocardial blood flow following, I-215
- noninvasive assessment of graft patency using directional Doppler, I-188
- prospective randomized study of coronary bypass surgery in stable angina, I-133
- valve replacement and myocardial revascularization, I-126
- Septal myectomy
  - simultaneous correction of AVS and IHSS, I-34
- Stab wounds
  - treatment of wounded heart, I-210
- Subendocardium
  - effects of drugs on transmural flow distribution after cardiopulmonary bypass, I-9
- Subendothelial proliferation
  - in autogenous vein grafts, I-163
- Survival
  - changes in survival and symptom relief after bypass surgery, I-98
  - following coronary bypass surgery of patients with significant impairment of LV function, I-141
  - left main coronary artery disease, I-105

## T

- Thromboembolism
  - functional evaluation of porcine heterographs in mitral position, I-40
- Trauma
  - treatment of wounded heart, I-210
- Trimethaphan
  - hemodynamic responses after open-heart surgery, I-26

## U

- Ultrasound
  - noninvasive assessment of aorta-coronary saphenous vein bypass graft patency using directional Doppler, I-188

## V

- Valve replacement
  - myocardial damage in combined valvular and coronary bypass surgery, I-119
  - myocardial preservation during operation, I-3
  - and myocardial revascularization, I-126
- Vascular resistance
  - blood flow and vasoactive drug effects in internal mammary and venous bypass grafts, I-72
  - effect of drugs on transmural flow and ventricular volume, I-9
- Vasoactive drugs
  - effects of blood flow and, in internal mammary and venous bypass grafts, I-72
  - effects of cardiogenic and, on transmural blood flow, I-9
- Vasodilators
  - comparative hemodynamic responses after open-heart surgery, I-26
- Vein bypass grafts
  - blood flow and vasoactive drug effects in internal mammary and venous bypass grafts, I-72
  - effect of blood flow rate on subendothelial proliferations in venous autografts used as arterial substitutes, I-163
- Ventricular fibrillation
  - effects of drugs on transmural flow distribution and ventricular volume after cardiopulmonary bypass, I-9
  - myocardial preservation during operation, I-3
  - nonmechanical factors affecting aortocoronary vein graft flow, I-178
- Ventricular function
  - hemodynamic responses to vasodilators after open-heart surgery, I-26
  - myocardial infarction in coronary artery surgery, I-198

## W

- Wounded heart
  - treatment of, I-210

## X

- Xenon clearance technique
  - myocardial blood flow following saphenous vein bypass surgery, I-215
